Contents

| Preface to the Thirteenth Edition Preface to the Twelfth Edition | ix xi |
|---|----------|
| Chapter One: Introduction | 1 |
| 1 The Flowants of an Argument | 1 |
| 2 Deduction and Induction | 1 |
| 2 Deduction and Induction 3 Deductive Argument Forms | 4 |
| 4 Truth and Validity | 8 |
| 5 Soundness | 10 |
| 6 Consistency | 11 |
| 7 Contexts of Discovery and Justification | 13 |
| 8 The Plan of This Book | 14 |
| Kev Terms | 15 |
| Part One: Sentential Logic | 17 |
| Chapter Two: Symbolizing in Sentential Logic | 19 |
| 1 Atomic and Compound Sentences | 20 |
| 2 Truth-Functions | 20 |
| 3 Conjunctions | 21 |
| 4 Non–Truth-Functional Constants | 24 |
| 5 Variables and Constants | 25 |
| 6 Negations | 26 |
| 7 Parentheses and Brackets | 27 |
| 8 Use and Mention | 28 |
| 9 Disjunctions | 29 |
| 10 "Not Both" and "Neither Nor" | 31 |
| 11 Material Conditionals | 33 |
| 12 Material Biconditionals | 37 |
| 13 "Only If" and "Unless" | 39 |
| 14 Symbolizing Complex Sentences | 41 |
| 15 Alternative Sentential Logic Symbols | 47 |
| Key Terms | 49 |

Contents

| Chapter Three: Truth Tables | 51 |
|---|-----|
| 1 Computing Truth-Values | 51 |
| 2 Logical Form | 56 |
| 3 Tautologies, Contradictions, and Contingent Sentences | 61 |
| 4 Logical Equivalences | 66 |
| 5 Truth Table Test of Validity | 68 |
| 6 Truth Table Test of Consistency | 70 |
| 7 Validity and Consistency | 72 |
| 8 The Short Truth Table Test for Invalidity | 73 |
| 9 The Short Truth Table Test for Consistency | 77 |
| 10 A Method of Justification for the Truth Tables | 79 |
| Key Terms | 82 |
| Chapter Four: Proofs | 84 |
| 1 Argument forms | 84 |
| 2 The Method of Proof: Modus Ponens and Modus Tollens | 86 |
| 3 Disjunctive Syllogism and Hypothetical Syllogism | 88 |
| 4 Simplification and Conjunction | 91 |
| 5 Addition and Constructive Dilemma | 91 |
| 6 Principles of Strategy | 94 |
| 7 Double Negation and DeMorgan's Theorem | 100 |
| 8 Commutation, Association, and Distribution | 102 |
| 9 Contraposition, Implication, and Exportation | 103 |
| 10 Tautology and Equivalence | 103 |
| 11 More Principles of Strategy | 107 |
| 12 Common Errors in Problem Solving | 111 |
| Key Terms | 117 |
| Chapter Five: Conditional and Indirect Proofs | 118 |
| 1 Conditional Proofs | 118 |
| 2 Indirect Proofs | 126 |
| 3 Strategy Hints for Using CP and IP | 131 |
| 4 Zero-Premise Deductions | 132 |
| 5 Proving Premises Inconsistent | 133 |
| 6 Adding Valid Argument Forms | 134 |
| 7 The Completeness and Soundness of Sentential Logic | 135 |
| 8 Introduction and Elimination Rules | 137 |
| Key Terms | 141 |
| Chapter Six: Sentential Logic Truth Trees | 142 |
| 1 The Sentential Logic Truth Tree Method | 142 |
| 2 The Truth Tree Rules | 143 |
| 3 Details of Tree Construction | 145 |
| 4 Normal Forms and Trees | 150 |
| 5 Constructing Tree Rules for Any Function | 151 |
| Key Terms | 154 |

| Part Two: Predicate Logic | 155 |
|--|-----|
| Chapter Seven: Predicate Logic Symbolization | 157 |
| 1 Individuals and Properties | 157 |
| 2 Quantifiers and Free Variables | 160 |
| 3 Universal Quantifiers | 162 |
| 4 Existential Quantifiers | 166 |
| 5 Basic Predicate Logic Symbolizations | 167 |
| 6 The Square of Opposition | 168 |
| 7 Common Pitfalls in Symbolizing with Quantifiers | 169 |
| 8 Expansions | 172 |
| 9 Symbolizing "Only," "None but," and "Unless" | 176 |
| Key Terms | 179 |
| Chapter Eight: Predicate Logic Semantics | 180 |
| 1 Interpretations in Predicate Logic | 180 |
| 2 Proving Invalidity | 182 |
| 3 Using Expansions to Prove Invalidity | 184 |
| 4 Consistency in Predicate Logic | 186 |
| 5 Validity and Inconsistency in Predicate Logic | 187 |
| Key Terms | 187 |
| Chapter Nine: Predicate Logic Proofs | 188 |
| 1 Proving Validity | 188 |
| 2 The Four Quantifier Rules | 189 |
| 3 The Five Main Restrictions | 196 |
| 4 Precise Formulation of the Four Quantifier Rules | 201 |
| 5 Mastering the Four Quantifier Rules | 203 |
| 6 Quantifier Negation | 207 |
| Key Term | 212 |
| Chapter Ten: Relational Predicate Logic | 213 |
| 1 Relational Predicates | 213 |
| 2 Symbolizations Containing Overlapping Quantifiers | 215 |
| 3 Expansions and Overlapping Quantifiers | 216 |
| 4 Places and Times 2^{11} 3^{2} | 220 |
| 5 Symbolizing "Someone," "Somewhere," Sometime," and So On | 221 |
| 6 Invalidity and Consistency in Relational Predicate Logic | 226 |
| 7 Relational Predicate Logic Proofs | 227 |
| 8 Strategy for Relational Predicate Logic Proofs | 234 |
| 9 Theorems and Inconsistency in Predicate Logic | 236 |
| 10 Predicate Logic Metatheory | 239 |
| 11 A Simpler Set of Quantifier Rules | 240 |
| Key Terms | 242 |
| | |

v

| Chapter Eleven: Rationale Behind the Precise Formulation of the Four Quantifier Rules | 243 |
|--|-----|
| 1 Cases Involving the Five Major Restrictions | 243 |
| 2 One-to-One Correspondence Matters | 245 |
| 3 Accidentally Bound Variables and Miscellaneous Cases | 249 |
| 4 Predicate Logic Proofs with Flagged Constants | 253 |
| Chapter Twelve: Predicate Logic Truth Trees | 256 |
| 1 Introductory Remarks | 256 |
| 2 General Features of the Method | 257 |
| 3 Specific Examples of the Method | 257 |
| 4 Some Advantages of the Trees | 262 |
| 5 Example of an Invalid Argument with at Least One Open Path | 262 |
| 6 Metatheoretic Discussion | 263 |
| 7 Strategy and Accounting | 266 |
| Key Terms | 268 |
| Chapter Thirteen: Identity, Higher-Order Logics, and Sets | 269 |
| 1 Identity | 269 |
| 2 Definite Descriptions | 274 |
| 3 Properties of Relations | 276 |
| 4 Higher-Order Logics | 280 |
| 5 Sets and First-Order Predicate Logic | 282 |
| 6 Set Theory and Second-Order Predicate Logic | 284 |
| 7 Russell's Paradox | 286 |
| 8 Sets in Foundational Arithmetic | 287 |
| 9 The Existence of Sets | 288 |
| Key Terms | 289 |
| Chapter Fourteen: Philosophical Problems of Symbolic Logic | 291 |
| 1 Limitations of Predicate Logic | 291 |
| 2 Philosophical Problems | 294 |
| 3 Logical Paradoxes | 300 |
| Key Terms | 308 |
| Chapter Fifteen: Modal Logic | 309 |
| 1 Modality and Modal Logics | 309 |
| 2 Modal Symbols and Translations | 310 |
| 3 Modal Logic Semantics | 312 |
| 4 Accessibility | 314 |
| 5 Modal Truth Trees | 316 |
| 6 Quantified Modal Logic | 321 |
| 7 Modal Realism, Modal Fictionalism and Transworld Identity | 322 |
| 8 Applications of Modal Logic | 323 |
| 9 Objections to Modal Logic | 324 |
| Key Terms | 327 |
| | |

| Chapter Sixteen: Syllogistic Logic | 328 |
|---|-----|
| 1 Categorical Propositions | 328 |
| 2 Existential Import | 331 |
| 3 The Square of Opposition | 331 |
| 4 Conversion, Obversion, Contraposition | 334 |
| 5 Syllogistic Logic—Not Assuming Existential Import | 337 |
| 6 Venn Diagrams | 339 |
| 7 Syllogisms | 341 |
| 8 Determining Syllogism Validity | 344 |
| 9 Venn Diagram Proofs of Validity or Invalidity | 344 |
| 10 Five Rules for Determining Validity or Invalidity | 349 |
| 11 Syllogistics Extended | 352 |
| 12 Enthymemes | 354 |
| 13 Sorites | 355 |
| 14 Technical Restrictions and Limitations; Modern Logic | |
| and Syllogistic Logic Compared | 357 |
| Key Terms | 361 |
| Appendix A An Alternative to Conditional Proof? | 363 |
| Appendix B Instantiations and Semantics | 367 |
| Appendix C A Final Note on Translations | 372 |
| Answers to Even-Numbered Exercise Items | 376 |
| Bibliography | 433 |
| Special Symbols | 436 |
| Index | 437 |
